

Site Access Agreement

Site Information

Property Name :

Address :

City, State, Zip Code :

1. **Permission for Access:** I agree to allow California Diamond Energy Solutions, Inc., (hereinafter " CA Diamond") its field personnel or subcontractors, access to my facility to verify eligibility for the installation of energy efficiency measures under a utility or third party rebate program. I understand that in some cases, an inspection may be required to verify equipment that is in place prior to the installation of energy efficiency measures. I understand that in some cases, a post-installation verification may be required after the installation of energy efficiency measures. I realize that these activities may require CA Diamond or others involved in the process to extend ladders, and to open fixtures and service hatches throughout the property.

2. **Liability:** I understand that California Diamond Energy Solutions, Inc. its sub-contractors or employees, utility or third party rebate program staff, and/or their sub-contractors involved in any aspect of this process are not liable to either party for any losses or damages, including incidental or consequential damages, arising from this Agreement.

3. **I understand that signing this Agreement does not obligate me in any way,** nor does it guarantee that California Diamond Energy Solutions, Inc., will secure energy efficiency benefits for my business.

I agree that this form and other related customer records provided to CA Diamond shall be treated as if they are public records under applicable Federal or State law and will be made available to members of the public upon request if these laws require unless a non-disclosure or other confidentiality agreement has been executed between the parties.

California consumers are not obligated to purchase any full-fee service or other service not funded by this program.

Los consumidores en California no están obligados a comprar servicios completos o adicionales que no esten cubiertos bajo este programa.

Eligibility

California Diamond Energy Solutions, Inc. provides energy efficiency consulting, rebates, and turn-key installation of efficient equipment to commercial PG&E electricity customers.

Process

1. Qualifying businesses receive a free energy audit and report detailing recommended energy saving measures, expected installation costs, estimated energy savings and rebate amount.
2. When the Customer has reviewed the report and decided to implement the recommendations, California Green Construction will be recommended to perform the work at a time that is convenient to the Customer.
3. Finally, a follow-up inspection to confirm the quality of installation may be conducted by the applicable utility or third party rebate program processing the rebate application. After a successful installation, the Customer is responsible to the contractor(s) for the portion of installation costs not covered by the rebate, if any.

Restrictions

This Program is available until all Program funds for 2009-2011 have been allocated. Funds will be distributed on a first-come, first-serve basis.
